“It is a pleasure to welcome you the International Congress on Coagulopathy in Liver Disease, taking place in Castellana Grotte from April 8 to 10, 2026. Supported by the COST Action EURO-VALDI-NET (CA23146) framework and I.R.C.C.S. “Saverio de Bellis” National Institute of Gastroenterology, this meeting will bring together leading experts from across Europe and beyond to address key challenges in the field of bleeding and thrombosis in liver disease. Emphasis will be placed on multidisciplinary exchange, translational research, and the development of harmonized approaches to risk assessment and management. Particular attention will be given to emerging therapies and future collaborative strategies.

We look forward to your active participation in this unique opportunity for scientific dialogue and network-building.”
